

Jon Rappoport: The Chinese virus is spreading"-deception and false news... The Commentary by MD Nancy T. Banks

Dear Friends

As you probably know, the corona virus like the rhinovirus are commonly referred to as the common cold viruses. Nothing new here. So why all of the brouhaha. Possibly another scare in the service of bigPharma to sell more vaccines and other more nefarious agendas (see Bill Gates and his population reduction agenda). However taking high doses of Vit. C at the onset of sniffles is quite effective:

<http://jamaica-gleaner.com/article/lead-stories/20141021/vitamin-c-kills-viruses>

There is actually a company located in London called "Crisis Solutions" whose job it is to simulate false flags in real time. Here is an old video from their web site which they have since taken down: <https://www.youtube.com/watch?v=UhPE5njIDtY> and here is their website advertising the creation of a pandemic:

<https://www.crisis-solutions.com/blogs/2020/1/23/five-things-your-organisation-should-be-consideringnbsprightnbspnownbsptonbsppreparenbbspfornbbspa-global-pandemic>

Here is an article from today's Daily Mail. <https://www.dailymail.co.uk/health/article-7933299/China-extends-New-Year-holiday-fight-killer-coronavirus-outbreak.html>

Please note that in several of the pictures it is summer time with leaves on the trees. It is winter in Wuhan which has a similar climate to the NE US.

Also keep in mind that Obama signed the NDAA which authorized the use of the same propaganda the US feeds to the international media to be funneled through the US media.

Stay well.

p.s. this is the corona virus patent: <https://patents.justia.com/patent/10130701>
There is no indication that it is harmful to humans.
